- e) **Presentation by:** Andie Adame / andie@craiglawson.com
Case Number: CPC-2008-4557-SN, ENV-2008-4556-EAF
Project Location: 899 S. Francisco Street Los Angeles, CA 90017
Project Description Request: Establishment of the Supplemental Use District “SN” Metropolis Sign District for the block bounded by State-Route-110, James M. Wood/9th Street off-ramp, Francisco Street off-ramp, Francisco Street and 8th Street. See Attachment A.

Pursuant to LAMC Section 13.11.B, Establishment of a Sign Supplemental Use District, the Applicant requests the establishment of the Metropolis Supplemental Use District for “SN” Sign District for the block bounded by State Route-110 (Harbor Freeway) on the west, the James M. Wood/9th Street off-ramp from the northbound State Route-110 (Harbor Freeway) on the south, Francisco Street on the east, and 8th Street on the north.

Pursuant to Section 12.32 S (Supplemental Use District) of the Los Angeles Municipal Code (LAMC), Greenland LA Metropolis Development II LLC (“The Applicant”) requests approval of the proposed Metropolis Sign Ordinance (“Ordinance”) establishing a new Sign Supplemental Use District (“Project”), to be known as the Metropolis Sign District (the “Sign District”), for the Metropolis Development, which is currently under construction. The Sign District would conform to the boundaries of the Metropolis Development and would be generally bounded by State Route-110 (Harbor Freeway) on the west, the James M. Wood/9th Street off-ramp from the northbound State Route-110 (Harbor Freeway) on the south, Francisco Street on the east, and 8th Street on the north and is depicted on the map included in Figure 1 Metropolis Sign District Area attached to the proposed Ordinance.

The proposed Sign District would enhance the unique character and qualities of the Metropolis Development and would complement and integrate this new development with neighboring projects in this burgeoning part of Downtown Los Angeles. The Sign District would establish clear standards to insure cohesion and compatibility with the surrounding land uses, facilitate the placement of unique signage that would support and enhance the overall project design and contribute to a lively and exciting pedestrian experience, especially along Francisco Street.

The Sign District request was initiated by the private property owner on November 10, 2008 under case number CPC-2008-4557-SN and has been on hold pending completion of the application. According to a March 4, 2014 memo issued by the Department of City Planning, the Metropolis Sign District is one of eleven pending sign districts that are considered “grandfathered” and would not be subject to new eligibility standards if a revised citywide sign ordinance is passed.
