

Operation Healthy Streets

City of Los Angeles – Bureau of Sanitation

TYPES OF CLEANING

Under Operation Healthy Streets (OHS) Maintenance Protocol (Phase III), there are two types of scheduled cleaning implemented by the City. Spot cleaning is a one day operation to clean all the streets in the designated Skid Row Area. Trash, debris, sharps, human waste, and other abandoned materials/ waste are collected and sent to disposal. OHS teams work around homeless encampments while flushing, vacuuming, and sanitizing the sidewalks and streets. Streets are swept as a final polishing measure.

Comprehensive cleaning is a 7-day operation which involves temporarily removing the homeless and their property from the sidewalks so that the street and sidewalks can be thoroughly cleaned. Postings notifying the public of the pending cleanings are placed in conspicuous locations on the streets days before the cleaning events. On the scheduled cleaning days, sharps, trash, debris, human waste, and other abandoned materials are collected and sent to disposal. Health hazard determinations are performed on unattended items. Items determined to be health hazards are sent to the proper disposal facility. Non-hazardous items are sent to a 90-day facility. Items are photographed and documented. Streets and sidewalks are thoroughly flushed, vacuumed, and sanitized.

Both the 1-Day Spot Cleaning and the & 7-Day Comprehensive Cleaning follow their own separate schedules.

	Spot Cleaning	Comprehensive Cleaning
Number of Days of Cleaning	1	7
Homeless & Property Moved From Street and Sidewalk		✓
48-Hour Street Posting Notification of Pending Cleaning		✓
Parking Restrictions Implemented		✓
Trash & Debris Removal	✓	✓
